

NEW

Canadian Grain Corn

TH6380 VT2P

BRAND

**80
RM**

PRODUCT HIGHLIGHTS

- Excellent combination of top yield performance and stability; good stress tolerance
- Awesome agronomics including very strong roots and stalks; great tolerance to Goss and NCLB
- Girthy semi-flex ear allows for Medium planting populations

MATURITY & CHARACTERISTICS

Flowering	Medium
CHU's to Black Layer	2325
Plant Height	Medium
Ear Height	Medium
Ear Type	Semi-Flex
Planting Rate	M
Kernel Rows	16-18
Silage Potential	3.0
Herbicide Sensitivity	Ok
RM Zone Placement	In Zone

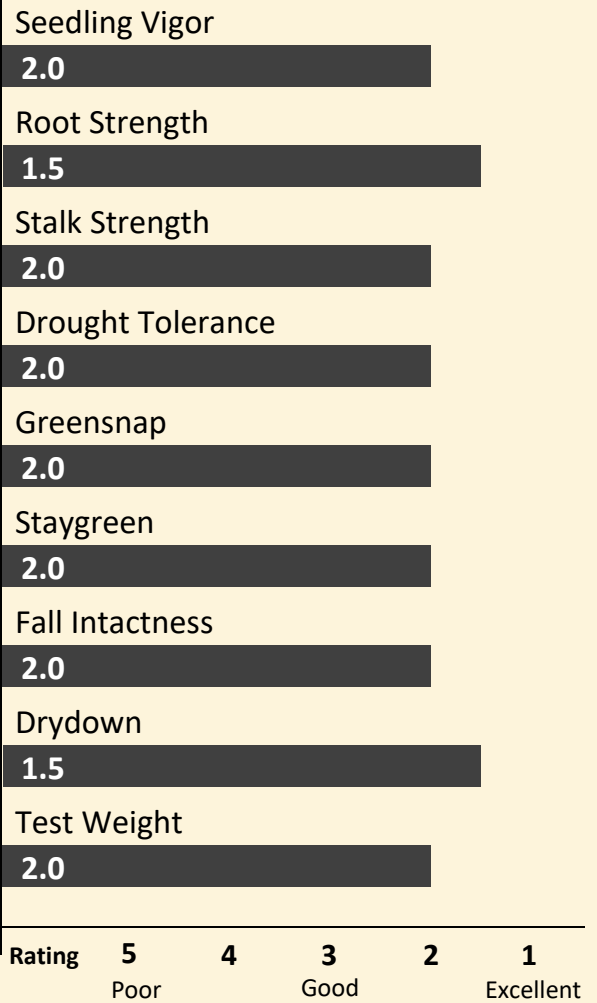

DISEASE TOLERANCE

Goss's Wilt	2.0
NCLB	2.0
Stalk Anthracnose	1.5
Tar Spot	N/A

GROWING CONDITIONS

Tough Conditions	Very Good
Variable Conditions	Excellent
Ideal Conditions	Excellent
